

**Inside Santa Barbara's Booming Tech Scene**

# TECH-TOPIA

On November 5, *The Santa Barbara Independent* presents a special glossy edition highlighting past and present tech trends in the Santa Barbara area. Everything from software-as-a-service and cloud computing firms to biomed, green energy, and computer security companies will be covered. We will also shine a light on various educational and nonprofit efforts underway to foster this growing community. The issue will include results from a wide-ranging survey of the South Coast region's tech sector.

To include your business in the free tech sector listing, visit this link:
